

St James News

- PTA
- Learning celebration
- Upcoming dates

Dear St. James families,

It has been nice to see a bit more sunshine this week and take advantage of our wonderful outside areas. There has been a real buzz around school about Science recently, which culminated in the Science Fair in year 1-6 classes. For the winners from each year group see learning celebrations. Thank you if you were able to come in and share in the children's learning!

 The overall winners a pair from Y1/2, Y3/4 and y5/6 will now have the opportunity to take their projects to the Vale Academy Trust Science Fair at Harwell & Innovation Campus. (invites to follow next week)

PTA:

Thank you to everyone involved and everyone who supported doughnut day last week and coin wars this week - a really fun event that has hopefully added a little more to our PTA fund. The focus on spending still remains creating wonderful outdoor spaces for the children to enjoy!

Event at the end of the year:

Party in the park - 15th July 2023

Lots of volunteers needed - The PTA will be in touch with more information soon!

Learning celebration:

This week's celebration Collective Worship was a packed one! We started with Year 2 receiving their spy certification!

Then we congratulated the St. James girls football team for an excellent tournament played this week at home!

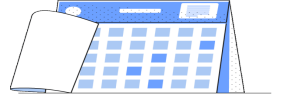

Next it was the turn of the Science Fair winners: congratulations to Theo, Beau, Johanna, Eleanor, Cian, Mikey, Charlie, Daniel, Alicia, Isabel, Georgia & Ella? (sorry I took a terrible photo and cut some of you off)

We then had football players from Inkpen class and Nichols class with an array of football trophies and medals.

Finally our collective worship was finished with Anna in Year 1 reading a prayer written by the children after learning about the Jewish tradition of Shabbat.

Next week
